Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted a speedy and certain cure for Fever and Ague, Chitls and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, and all malarial disorders. In minsmatic districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severer symptons which terminate in the ague paroxysm, succeeded rminate in the ague paroxysm, succe

by high fever and profuse perspiration. It is a startling fact, that quinine, arse and other poismous minerals form the had of most of the "Fever and Ague Prepar tions," "Specifics," "Syrups," and "Too cs," in the market. The preparations n from these mineral poisons, although are palatable, and may break the chill not cure, but leave the malarial and i own drug poison in the system, produc quinism, dizziness, ringing in the ears, he ache, vertigo, and other disorders more i midable than the disease they were intento cure. Aver's Ague Cure thoroughl eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its cer-tainty to cure, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, Aven's Acure 2000, by direct action on the liver and biliary apparatus, drives out the poisons which produce these complaints, and stimulates the system to a vigorous, healthy condition.

We warrant it when taken according to
